### Long term Rental

Need to buy it, but strapped for cash? Why not lease? Rental amounts are fixed (and can be allocated against your revenue budget); you choose whether to pay monthly or quarterly; rentals are fully-allowable against Corporation Tax; the flexibility of leasing enables easy upgrade of equipment or purchase at the end of the lease period.

So, switch to leasing: pay for your equipment as you use it, keep control of your financial budgeting and keep pace with the latest technology.
