

Welcome to

Welcome to
Better Meetings.

Skype for Business, Skype, Office 365, Google Hangouts, Pexip, Go To Meeting, Zoom, Blue Jeans, Adobe Connect, FreeConferenceCall.Com, Amazon Chime, Simplicity and more

The Quicklaunch™ application is a simple and secure meeting room interface that provides multi-platform integration to transform any PC into a one click meeting space.

Quicklaunch™ UE – Ultimate Edition provides users with the power and flexibility of a PC with the simplicity and security of the an appliance. All you need is a camera, PC, and display to get started. Quicklaunch™ integrates with your existing Microsoft Exchange or Gmail Calendar to create a single click join experience for a number of collaboration Platforms.

Quicklaunch™ is built with security in mind. Unlike other meeting room applications that can unknowingly leave behind temporary files containing sensitive data. Quicklaunch™ keeps your confidential data secure with the 'Room Reset' feature which clears temporary, files, cache, advanced options and more to delete the data before the next group meets. Quicklaunch™ also has an optional 'lock-down' mode to further restrict the usage of the PC in the meeting room.

With Quicklaunch™, your meeting space is always ready to join or create new meetings with a simple touch. Quicklaunch™ is more than just a system to join meetings with one-touch. It seamlessly brings multiple technologies together into a single application, enabling collaboration rather than complicating it.

Extended Enterprise One-Touch Experience

Easy–Interactive–Touch–Pen–Intelligent

Quicklaunch™ is designed for organizations that are looking to provide an intuitive, rich collaborative experience. Quicklaunch brings a common interface using a spectrum of devices and can be used in multiple locations. Quicklaunch™ is available as a standalone application or from our partners as part of a meeting room bundle that includes PC ,Camera, Mic, Speakers, wireless and more.
