

Huddly L1

Large & Medium Meeting Room Camera

Huddly L1

Spec Sheet

82 mm / 3.2 in

90 mm / 3.5 in

0.6 kg / 1.32 lbs

52.5 mm /
2 in

122 mm / 4.8 in

Huddly L1 delivers smart, high-quality video experiences in large and medium meeting rooms.

Features

- Genius Framing
- InSights Analytics API
- Real-Time Dewarping
- Image Enhancement
- Portrait Lighting
- Digital Pan/Tilt/Zoom
- Software-upgradable

Optics

- Wide-angle glass optics
- Horizontal field of view 92°
- Vertical field of view 65°
- Diagonal field of view 103°
- f/2.9 aperture

System & Hardware Requirements

Windows 10

Hardware

- High-performance VPU with neural compute engine
- Aluminum body
- Camera tripod mount
- Color: Matte Black

Image

- 20.30 Megapixels 1" CMOS Sensor
- 1080p Full HD @ 30 fps
- 720p HD @ 30fps
- Up to 5x digital zoom
- 16:9 aspect ratio output
- 180° image auto-flip

Packaging Dimensions

H:90mm x L:278mm x W:185mm

Connectivity

- Connector: RJ45 Gigabit Ethernet
- Cable: CAT 5e/6/7

Mounting Bracket (included)

- Made for placement on wall or shelf
- Weight of bracket: 117g

Huddly L1

Features

Convolutional Neural Network

The camera can instantly identify visual patterns, and detect people and objects using its multi-layered CNN

Genius Framing

The camera detects the people within its entire field of view and zooms in and out to frame them for the best video experience

InSights Analytics API

The camera can detect and count people within its entire field of view, with high-quality analytics data accessible via the Huddly InSights API

Real-Time Dewarping

The camera's wide-angle image is dewarped and perspective corrected in real time, rendering a natural, true-to-life view

Image Enhancement

The camera automatically corrects white balance, color and optical aberration. It reduces image noise through bias compensating spatio-temporal filtering with wide area chroma filtering. The camera adapts to poor lighting conditions with Dynamic Light Optimization

Portrait Lighting

The camera uses AI to understand the lighting conditions in the image and automatically adjusts exposure to ensure that faces are well-lit and facial expressions are clearly visible

Digital Pan/Tilt/Zoom

The camera has no moving parts, allowing Pan, Tilt and Zoom functions to be adjusted smoothly, silently and instantly

Software-Upgradable

The camera is designed to get even smarter over time with regular software enhancements and new intelligent features
