# COMMAND THE CONVERSATION WITH POLY AND MICROSOFT TEAMS

Poly creates premium audio and video products so you can have your best Teams meeting—anywhere, anytime, every time. Our Teams certified headsets, video and audio-conferencing products, desk phones, analytics software and services are beautifully designed and engineered to connect people with incredible clarity. They're pro-grade, easy to use and work seamlessly with Microsoft Teams.

With Poly and Microsoft Teams, you'll do more than just show up, you'll stand out.

## Poly G40-T

Delivering clutter-free Microsoft  
Teams Rooms experience

# OWN THE MEETING WITH END-TO-END SOLUTIONS FOR MICROSOFT TEAMS

## VIDEO

Poly room solutions for Microsoft Teams, including **G-series Teams Rooms** on Windows and **Poly Studio X30** and **Poly Studio X50 Teams Rooms** on Android, deliver the familiar Teams interface, combined with powerful Poly audio and video technologies.

From the conference room to the home office, Poly makes hybrid working a seamless experience.

**Poly Studio P Series** personal video conferencing devices make the most of video calls from wherever work happens. High-performance cameras compensate for lighting imbalances. Premium audio eliminates distractions.

Standalone certified Teams Rooms camera options are also available for the conference room such as **Poly Studio** and **EagleEye Director II**.

## VIDEO INTEROPERABILITY

**Poly RealConnect** enables video interoperability with Microsoft Teams without adding complexity. With RealConnect, it's easy to connect your H.323/SIP videoconferencing systems to Microsoft Teams (or Skype for Business) meetings. Keep the workflow you're used to, just add video interoperability so anyone can join the meeting from their personal clients, Microsoft Teams Rooms systems, as well as from video conferencing systems. It's that simple.

## HEADSETS

Poly headsets are beautifully designed tech that let you hear and be heard with incredible clarity, while tuning out distractions. Delivering crazy good audio for your most important conversations.

Poly's Microsoft Teams-certified headsets meet Microsoft's audio requirements and include a dedicated Teams button to instantly invoke Microsoft Teams to the foreground for streamlined communications. Poly headsets certified for Skype for Business are recertified for Microsoft Teams, providing similar user experience.

The **Voyager** family of Bluetooth® wireless headsets provides seamless, multi-device connectivity for today's workforce.

The **Savi** family provides a selection of DECT™ wireless headsets that offer best-in-class sound quality and multi-device connectivity, long-range and hands-free mobility and hours of talk time for ultimate efficiency.

The **Blackwire** family gives you a broad selection of corded UC devices that deliver outstanding audio quality and reliability, ease of use and price points to meet any budget.

## DESKTOP

In the office, at home or on the go, Poly delivers the broadest set of voice devices for Microsoft Teams.

The **Poly CCX Series** delivers exceptional audio quality and the option to choose a headset or headset (CCX 500/600).

## CONFERENCE PHONES

Customers looking for conference and speakerphones for their Microsoft Teams communications turn to Poly when they want high-quality audio and innovative features that transform the conversation.

**Poly Trio C60**, the latest and most powerful Trio conference phone to date, sets the new conferencing standard for Microsoft Teams calls with familiar interface and one touch-to-join calendar integration. Also certified for use with Microsoft Teams Rooms as USB audio device.

**Poly Sync Family** USB/Bluetooth® smart speakerphones provides premium sound, easy connections, and flawless meetings. Poly Sync 20 for personal spaces and Poly Sync 40 and Poly Sync 60 for small to medium conference rooms.

## SOFTWARE

Get a clear picture of your collaboration environments, with a spotlight on how your spaces and devices are being used. Device management puts you in control across your entire organization while the cloud-based architecture gives you security, flexibility, and agility.

**Poly Lens** provides workspace insights and management software through quick device onboarding, inventory management, and intelligent news feed.

## SERVICES

Our comprehensive suite of services for Microsoft Teams focuses on supporting the customer through their transformational journey, drives customer success and delivers the required business outcomes with Microsoft Teams. They provide comprehensive, personalized guidance from Poly's Microsoft experts whilst minimizing potential impact on end users and speeding up productivity.

**Microsoft Cloud Accelerator Workshops** are two-day engagements that are delivered remotely to accelerate your journey to Microsoft Teams.

**Poly Network Readiness Service for Microsoft Teams** ensures the network is capable of performing at a consistent, optimal level for carrying real-time media traffic, delivering a readiness assessment of connectivity from the Edge to the cloud and provides an assessment and remediation plan for improving performance in supporting the low loss, and jitter requirements needed to support real-time media.

**Poly Adoption Consulting Services for Microsoft Teams** is focused on accelerating the transition and transformation to new and better ways of working while achieving measurable business value through the usage and adoption of Microsoft Teams.

**Poly User Migration Service for Microsoft Teams** focuses on user migration for Microsoft Teams Phone System with Direct Routing and audio conferencing. The service guides the customer through the essential and complex planning, delivery, and operation activities required to successfully migrate users and workloads to Microsoft Teams.

**Poly PBX Migration Service for Microsoft Teams** enables an automated platform that adopts a phased migration methodology for successful execution. Divided into two phases, this service guides you through a migration's complex planning, delivery, and required operational activities.

**Poly Room Solutions for Microsoft Teams Assessment and Onboarding Service** help you kickstart your journey from Assessment, Design and Deployment right through to day-to-day operations and adoption. This service allows for happy customers with healthy and well-performing rooms, so you are ready to expand and deploy with confidence.

**Microsoft Teams Calling Workshop** helps you experience Microsoft Teams Calling with Phone System capabilities. We showcase the calling capabilities through immersive experiences, use-cases, and deep-dive planning, resulting in actionable recommendations for the enablement and adoption of Microsoft Teams for Calling.

**Microsoft Teams Meeting and Meeting Room Workshop** is designed to improve your meeting room experience and understand how to best leverage voice and video solutions. It will also help to showcase modern immersive experiences, use-case design, and deep-dive planning, driving meeting culture transformation.

**Secure Work from Anywhere Workshop** introduces the value of Microsoft 365, highlighting scenarios that leverage voice and video solutions enabling your employees to be more productive and secure from any location.

**Poly PBX Assessment Service for Microsoft Teams** provides the tools you need to totally assess, analyze, and map the full configuration of the source PBX environment to a ready-to-execute Microsoft Teams Phone System production solution.

Or you can outsource to Poly and our **Managed Services for Microsoft Teams** offers you a turnkey solution that drives interoperability of Microsoft Teams via an end-to-end, global, single-source managed service.
