

## SMART Collaboration Hub

The SMART Collaboration Hub is all-in-one performance display that offers a seamless interactive meeting experience. It is your modern meeting solution for hybrid collaboration, available in 65", 75" & 86".

Combined with SMART TeamWorks collaboration software the experience is an end-to-end meeting solution that is designed for fast, flexible and limitless connectivity, collaboration and engagement. Share screens, access personal cloud storage, open a collaborative whiteboard, and launch meetings faster with one touch, all from the home screen. Native integration with Zoom, Microsoft Teams, and Webex. Join your meetings with ease.

The QR code quick-join for apps allows users to join meetings or workspaces instantly and effortlessly using their device camera.
